Your request has been received. For your information, this office currently has a backlog of requests for information, which we manage in accordance with USDA's Regulations and Department of Justice Freedom of Information Act (FOIA) policy. The FOIA Staff processes requests on a first-in, first-out basis using "multi-tracks." There are four tracks: an expedited track, if the request qualifies; a simple track for relatively simple requests; a complex track for more complex and lengthy requests; and a remanded track, when a FOIA appeal is granted. Please be assured that your request will be categorized and processed in turn.

Should you have questions, you may call the FOIA Staff at (202) 720-5677 and refer to Log No. 13-00007.
